## Kyoto iUP

The Kyoto University International Undergraduate Program (Kyoto iUP) is a 4.5-year international scholarship program comprising a six-month preparatory course and four years of undergraduate study. Graduating students are awarded a bachelor's degree in their chosen major. No Japanese language proficiency is required at the outset, as the program provides an intensive Japanese language component. Admission and tuition fees are exempted, and students receive a monthly merit-based scholarship of up to JPY 120,000.

In the first two years of the program (following the six-month preparatory course), students study liberal arts and sciences courses and fundamental courses in their field of specialization. Classes are taught in English and/or Japanese and are also attended by Japanese undergraduate students. The final two years of the program focus on specific subjects in the students' majors, which are taught mainly or exclusively in Japanese.

Number of Kyoto iUP Applicants

To date, 94 students from 19 countries/regions have been enrolled in the course (in the period Oct. 2018–Oct. 2023).

## **Amgen Scholars Program**

The Amgen Scholars Program is a short summer program that provides scholarships for undergraduate international students to engage in diverse cutting-edge science research at leading academic institutions, including Kyoto University. The program aims to foster the next generation of innovators by providing increased opportunities for students pursuing careers in science.
